

# Team BC Freshman Women's Field Lacrosse

**Team BC Freshman Women's Lacrosse Team**

BCLA's Team BC Freshman Women's Field Lacrosse team competed in their first lacrosse tournament with a successful showing at the Adrenaline Seattle Tournament November 1 & 2 in Tukwila (WA). In January, they also travelled to Indio (CA) for the 2015 Sandstorm Lacrosse Festival. This team consisted of twenty grades 8 & 9 lacrosse athletes from BC.

At the Seattle Adrenaline Tournament, the Team BC Freshman played 3 tournament games, winning all by outscoring their opponents 29-9. In Game 1, Team BC, in their first game as a team, got over some early nerves and defeated the Mustang Starz (Calgary) 11-0. In game two, a much more confident squad played strong at both ends of the field en route to a 10-2 over the Vand'al White team (Seattle). In the last game, Team BC got behind 3-0 early in the match, only to mount a comeback and defeat the Seattle Starz Select team 8-7.

On day of two, Team BC played two exhibition games versus the Puget Sound Elite and Puget Sound Selects and lost both games by scores of 16-2 and 10-5 respectively.

Freshman Head Coach, Fred Jenner (Victoria), was impressed with his team's performance. "We could not have been happier for the girls. It was great how the athletes came together and played as a team. What an awesome way to finish off the tournament for these girls."

Team BC Women's Program Head Coach, Dan Stroup (Port Coquitlam), took in the tournament and knows these competitions will go a long way in player development. "These young ladies played well against some older competition. The time together as a group is a great first step in building this team."

Team BC Field Lacrosse Co-ordinator, Reynold Comeault, applauded the Team BC efforts. "The goal of this inaugural season was to expose the players to their first taste of high intensity Women's lacrosse with similar skilled players and Team BC coaching. We have accomplished that to a great degree and have been very pleased with effort, enthusiasm and development of each and every player."
